

## **Risk Assessment Form for Taught PG Projects**

- **Risks associated with project work:**
  - **Legal/Security issues associate with DDoS attacks**
  - **Difficulties with simulating DDoS attacks**
  - **Contraction of Covid-19 - due to current pandemic**
  
- **Precautions to be taken to reduce the level of risk:**
  - **DDoS implementations will be simulated**
  - **A working simulation should be completed as there is reference material to draw from. Adequate time has been allocated in order to complete the required simulations**
  - **All work will be completed remotely, i.e. no access to DCU campus is required, reducing the current risks associated with Covid-19**
  - **Consideration has been given in the project plan to account for the recovery time associated with Covid-19 (~2 weeks).**
  - **The risk of contracting Covid-19 is greatly reduced as I am living with one housemate, with both myself and my housemate working from home.**
  
- **Confirm Supervisor Approval: Yes or No**
